ALEX STRANGEVILLE

Alex is the leader and founder of CMD' Pop. He's the most mysterious member of them all. Is he a cat? Is he boy? No, he's a catboy. A man in a human body with catears and a tail attached to it. He didn't always used to be like this.

Back when Alex was younger, he used to sing poorly, but always had the dream of becoming a popstar. After he has become friends with Logan, he and Logan tried to sing beautiful duets, but Alex wasn't near as skilled as Logan was until one day he talked to Logan's mom. She told him that she could brew him a potion which would give him the most beautiful voice in the world. After Alex told Logan about this amazing solution, Logan got furious. He ran to the brewing room which surprised his mom a bit too much. She dropped a cat eye (an ingredient that isn't even needed for the spell) into the brew without her even realizing it. Soon after Alex drank the potion, the effects of the cat eye kicked in and attached catears and a tail to his body. Luckily his voiced changed into a more beautiful sound as well and from that day on, Alex went through life as a catboy.

Even though Alex is part cat, he rather doesn't want to be touched or pet. The only one he doesn't mind it from is Logan, his childhood friend, who he's also crushing, but he's too shy to show it.

During high school he has also become great friends with Stacey. After the talent show 3,5 years ago, they've sang a lot together and have been able to pay their bills from their gigs.

Alex loves Taylor, because she always protects Logan whenever he needs it. Alex would do anything to protect Logan as well, but his fighting abilities are not as strong as Taylor's.

LOGAN GREENFELT

Logan is the longest lasting member of CMD'm Pop and the younger brother of Taylor. Both Logan and Taylor have achieved the power of witchcraft, which they can thank their mom for.

Logan has always been a bit of an emo kid, yet he always had his loyal friend Alex and his older sister Taylor by his side to protect him against bullies. He might seem cold on the outside, but he actually really cares about Alex and Taylor.

Besides his family he also really likes attention, and he gets that a lot from Lillia. His sister has warned him many times before of how possessive Lillia gets but he doesn't seem to bother.

Although he loves the physical touch that she gives him, he prefers to receive it from the white haired catboy Alex. He tries to hide it and act all tough when there are other people around, but when they're alone, he's an extreme softy for him.

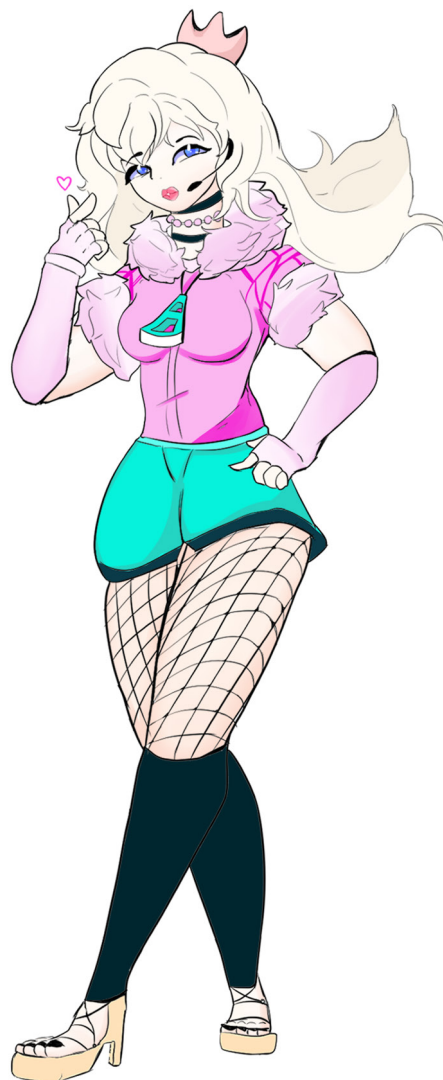

Logan cares a lot about his image and therefore dislikes photoshoots, because he's never happy enough with the pictures they take. The only pictures he's happy with are the cute selfies that him and Alex make during their free time or after the shows.

Logan and Alex have known each other since the end of elementary school and have been best friends ever since. He wouldn't want to lose Alex. Not for anything in this world.

LILIA CHANDLER

Lillia is the bitchy member of CMD'm Pop. She is also the richest member of the group and the least talented one. Alex contacted her father, since he is one of the most famous producers in Britain. He accepted on producing for the group if his daughter was allowed to join, so she could "get off her cute lazy ass and see the world".

The first time in the studio she immediately fell in love with Logan. His charm, his aura, she felt it all. She's obsessed with him. Always wanting to be around him, touching him 24/7 and even though Taylor told her to back off, she doesn't care. Logan is hers and she will marry him in the future, no matter what.

Besides her dad producing the songs, he also invests in the tour and the music videos. They're one of the richest families in Britain and they can do whatever they want.

STACEY COLLINS

Stacey is the youngest member of CMD'm Pop. Her and Alex go way back, during their high school days. Both Alex and Stacey participated in a talent show when they were 16 years old. Alex got fourth and Stacey got second, but after this encounter the two started to become friends and decided to perform from time to time around school and nearby bars.

We jump two years further in time, the end of high school, their ways would part, but Alex thought he and Stacey could achieve more in life. Which is why he asked her if she wanted to join in a band he wanted to create together with his best friend and their sister. Stacey obviously agreed and from that day on she became part of CMD'm Pop.

TAYLOR GREENFELT

Taylor is the oldest member of CMD'm Pop and the older sister of Logan. Both Logan and Taylor have achieved the power of witchcraft, which they can thank their mom for. Taylor has always been very protective of her little brother, since he always tends to get in trouble with his cold, not caring attitude. Besides loving him, she adores the fact that Logan is heavily crushing on Alex.

Even though Alex is too oblivious to notice the attempts Logan makes, she always supports what they've got going on and she's their Nr. 1 shipper.

She also has a very good relationship with Alex. He's basically like a second little brother to her, although she's less protective of him, because Alex is smart enough to run away. Alex and Logan have been friends for almost a decade now so he's basically part of the family. It also feels like that to Taylor.

Stacey is a sweetheart, according to Taylor. "Cute, sweet, talented, shy and a nice body". She might have a little crush on her. They've been singing for two years now and their voices together make the most perfect harmonies.

The only person she really despises is Lillia. She hates her, because Lillia is obsessed with Logan, on a psychopathic level. She feels like Lillia is ruining her ship between Alex and her little brother and the relationship between her and Logan. She has nothing good to say about Lillia.

In her signature she always spells her name with an i in stead of an y. Alex told her to do this, otherwise people might think she's a dark Taylor Swift.
